

Cat Care Life

Kitten Care: A Comic Guide

Scene 1: Welcome Home!

Caption: Make sure your kitten has a warm, safe, and quiet space all to themselves. Think cozy and comfy!

Scene 2: Feeding Time Essentials

Caption: Gather special kitten formula, small bottles, and measuring tools. No regular milk for tiny tummies!

Scene 3: How to Bottle Feed

HOW TO BOTTLE-FEED A KITTEN

THE RIGHT WAY

1 POSITION KITTEN ON ITS BELLY
Place the kitten on a soft towel. This is the natural feeding position.

2 SUPPORT THE NECK
Gently support the kitten's neck and shoulders. This helps prevent milk from going into the lungs.

3 ANGLE THE BOTTLE
Hold the bottle at a slight angle—just enough to fill the nipple.

4 LET THEM SUCKLE
Allow the kitten to latch on and suckle at its own pace. Take breaks if needed.

TIP: Let the kitten come to you. Never force the bottle.

IMPORTANT REMINDERS

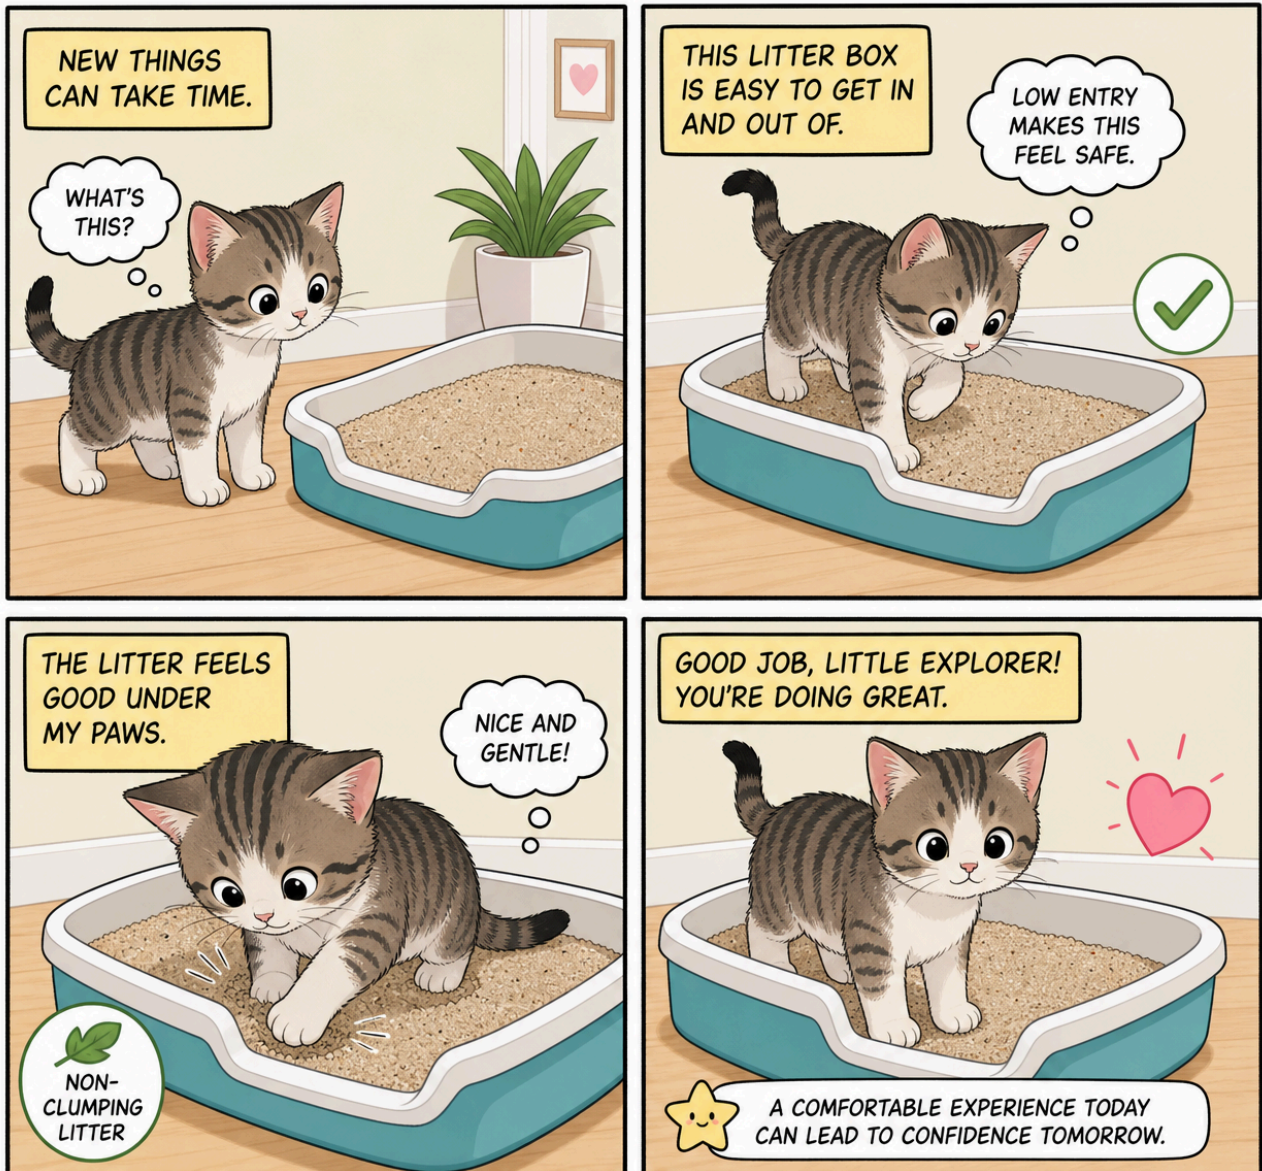

- Never feed a kitten on its back.
- Watch for steady sucking and swallowing.
- Burp gently after feedings.

Happy, full, and comfortable!

Caption: Always feed your kitten on its belly, never on its back. Support its neck and let it suckle gently. Watch for drips – that means it's full!

Scene 4: Litter Box Basics

 PATIENCE, POSITIVITY, AND A LOW-STRESS SETUP HELP KITTENS THRIVE.

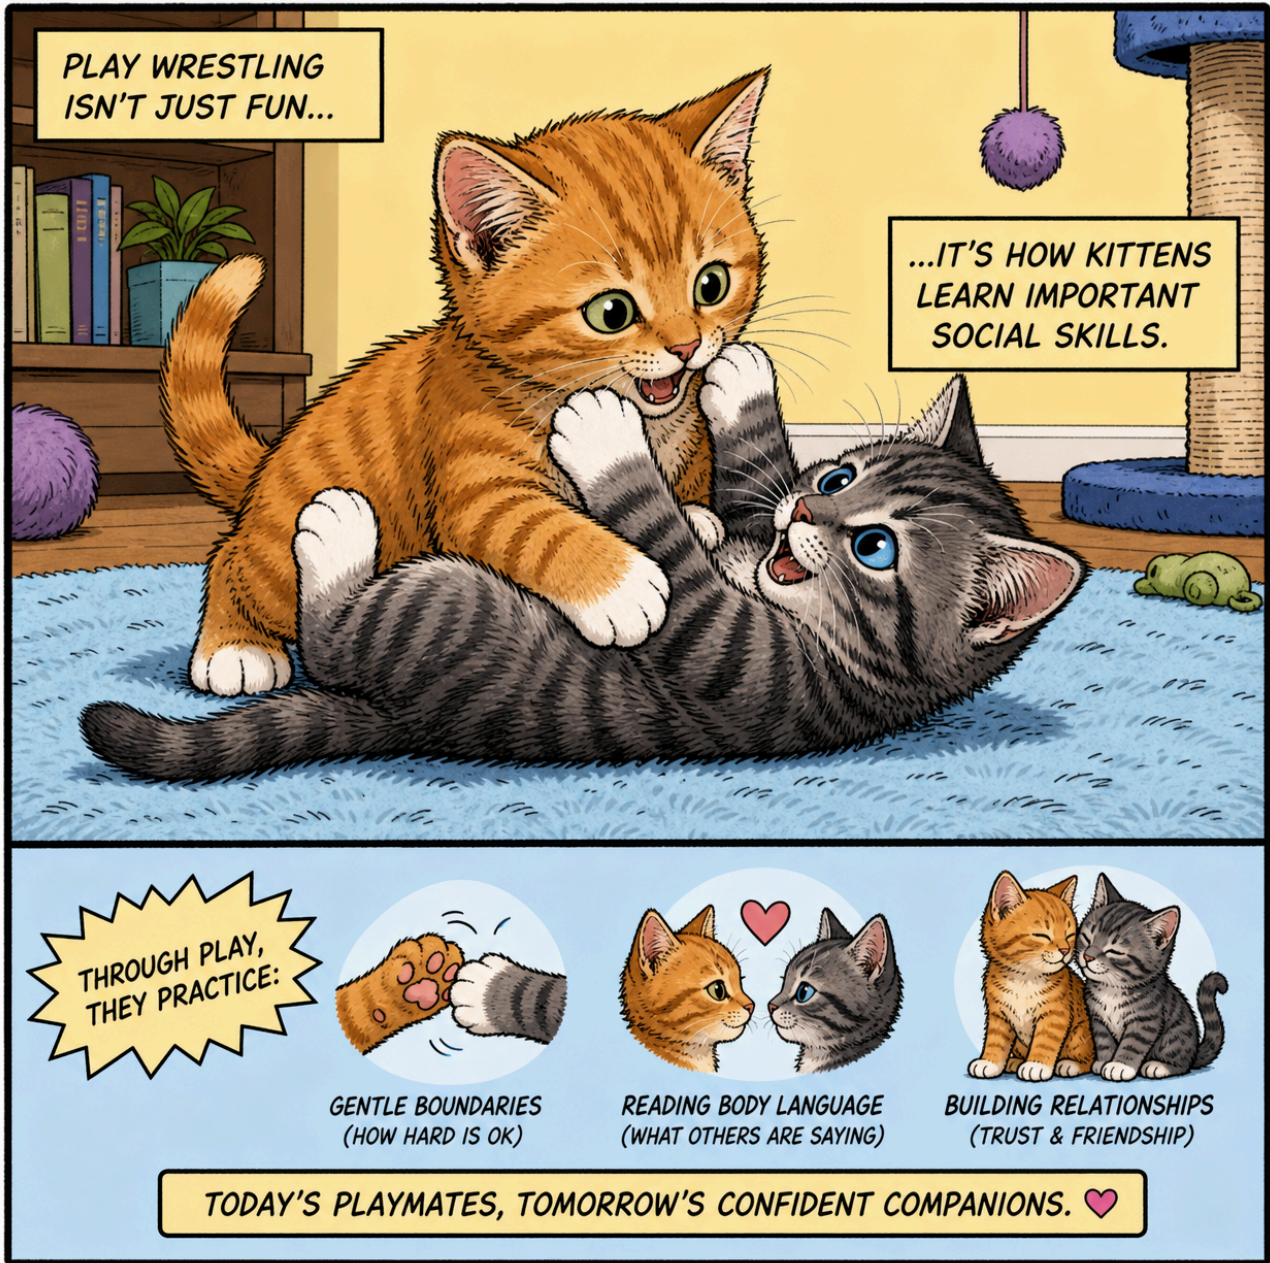

Caption: Once your kitten is 3 weeks old, show it a low-entry litter box with non-clumping litter. Keep it clean, and be patient!

Scene 5: Socializing with You

Caption: Spend at least an hour a day playing and interacting with your kitten. This helps them become friendly and loving!

Scene 6: Play with Siblings

Caption: Playing with other kittens teaches them good manners, like how to play without biting too hard. It's called 'aggression inhibition'!

Scene 7: Keeping Clean

Caption: Brush your kitten regularly, trim its nails, and gently clean its ears and eyes. A clean kitten is a happy kitten!
